## List of Medication Coverage Changes

*(Updated 5/1/2023)*

## INTRODUCTION

---

The Umpqua Health Alliance (UHA) Pharmacy and Therapeutics (P&T) Committee composed of pharmacists and physicians determine which drugs should be covered, the coverage restrictions, and the PA guidelines. The goal of the P&T Committee is to create a formulary (list of covered drugs) with medications that are safe and effective and that offer the best value.

Our formulary and prior authorization guidelines are usually updated quarterly. **This document contains all updates made to the UHA formulary and PA guidelines since January 1, 2020.** The current versions of our formulary and PA guidelines are available on the UHA Pharmacy Services webpage: <https://www.umpquahealth.com/pharmacy-services/>.

## LEGEND

---

The following are restriction and coverage abbreviations found in this document:

ABBREVIATIONS	DEFINITION	EXPLANATION
PA	Prior Authorization Required	Prior authorization (e.g. prior approval) is required before filling a prescription for this drug. Without prior authorization, we may not cover this drug. The provider must submit a request for prior authorization with the appropriate documentation (including recent chart notes) before the drug is covered. A specific PA guideline policy number beginning with “RX” may be referenced in the “Description” column. Visit the UHA Pharmacy Services webpage for our PA guidelines: <a href="https://www.umpquahealth.com/pharmacy-services/">https://www.umpquahealth.com/pharmacy-services/</a> .
ST	Step Therapy Restriction	We require trial and failure of one or more lower-cost or preferred drug(s) (“Step 1 drug”) before using the more expensive or non-preferred drug (“Step 2 drug”). If it is medically necessary for a member to use a Step 2 drug first, the prescriber will need to submit a request for prior authorization.
AR	Age Restriction	Coverage of this drug is limited to a specific age range. Covered ages are listed. A prior authorization is required for members outside of the listed age range.
QL	Quantity Limit	We will cover this drug only up to a certain quantity or limit per time or per fill. The specific quantity limit is listed. If it is medically necessary to exceed the quantity limit, the prescriber will need to submit a request for prior authorization.
SPEC	Specialty Drug	Coverage for specialty drugs will only be provided if the drug is obtained through our contracted specialty pharmacy, MedImpact Direct Specialty Hub. <i>MedImpact Direct Specialty Hub</i> <i>Telephone: (877) 391-1103</i> <i>Fax: (888) 807-5716</i> <i>Website: <a href="http://www.medimpactdirect.com">www.medimpactdirect.com</a></i>
