

Professionally Administered Drugs Prior Authorization Grid

This authorization grid pertains to professionally administered drugs (PAD), which are administered by a healthcare provider in a clinical setting, such as an office, outpatient hospital facility, or through home infusion therapy services. These services, known as buy and bill, are billed under UHA's medical benefit.

**Drugs billed directly to UHA by a pharmacy are considered part of the pharmacy benefit. For retail, specialty, or mail-order coverage information, please visit our [Pharmacy Services](#) webpage.*

Important Information for All Providers

GENERAL INFORMATION

- Services not reflected on this authorization grid will **require** a prior authorization.
- No PA required if UHA is secondary payer.
- UHA **requires** a prior authorization for **out-of-network services** unless indicated otherwise within this document.

MEDICAL NECESSITY/APPROPRIATENESS

- All services must be medically necessary, subject to OHP regulations. If a service performed is non-funded by OHP (and is not an additional benefit offered by UHA), the claim will be denied as a non-covered service per OHP criteria (see Prioritized List at <http://www.oregon.gov/oha/HPA/CSI-HERC/Pages/Prioritized-List.aspx>).

EPSDT BENEFIT

- Services for children from birth to under age 21, may require a prior authorization review for medical necessity and appropriateness in accordance with the Early and Periodic Screening, Diagnosis and Treatment (EPSDT) benefit. Please see our [EPSDT criteria](#).

AUTHORIZATION/PAYMENT

- An approved authorization is not a guarantee of payment. Payment is based on benefits in effect at the time of service, member eligibility and medical necessity.
- Any requests for authorization after 30 days from the date of service (90 days for Behavioral Health services) requires documentation from the provider that indicates why authorization could not be obtained within 30/90 days of the date of service. Prior authorization of services shall be subject to periodic utilization review and retrospective review to ensure services meet the definition of medical appropriateness.
- Single Case Agreements (SCA) and Special Financial Arrangements (SFA) must be requested on the PA. In-network providers claims will be paid at their contracted rate unless otherwise indicated.
- UHA may not authorize services under the following circumstances:
 - ❖ The request received by UHA was not complete.
 - ❖ The provider did not hold the appropriate license, certificate, or credential at the time services were requested.
 - ❖ The recipient was not eligible for Medicaid at the time services were requested.
 - ❖ The provider cannot produce appropriate documentation to support medical appropriateness, or the appropriate documentation was not submitted to UHA.
 - ❖ The services requested are not in compliance with OAR 410-120-1260 through 410-120-1860.

Prior Authorization (PA) Submission

UHA requires all in-network providers to submit PA requests through CIM.

- Follow these [Instructions](#) if you need help on how to sign up for CIM access.
- To access the provider portal, click this link: <https://cim1.phtech.com/cim/login>.

Out-of-network providers may submit PA requests through fax with our [Professionally Administered Drug \(PAD\) Prior Authorization Form](#).

Required information: Medical notes, prescriptions and supporting documentation must be submitted with the prior authorization (PA) request. These notes must be current and relevant to the requested service and patient's condition.

**Professionally Administered Drugs (Injectable and Infused)
Codes Not Requiring Prior Authorization for ALL Providers
(In and Out-of-network)**
