

# UMPQUA HEALTH ALLIANCE

## INTRODUCTION

The information contained in the Umpqua Health Alliance (UHA) Formulary and its appendices is provided for the convenience of medical providers and UHA members. UHA does not warrant or assure accuracy of such information nor is it intended to be comprehensive in nature. The UHA Formulary is not intended to be a substitute for the knowledge, expertise, skill, and judgment of the medical provider in his/her choice of prescription drugs. UHA assumes no responsibility for the actions or omissions of any medical provider based upon reliance, in whole or in part, on the information contained herein. The medical provider should consult the drug manufacturer's product literature or standard references for more detailed information.

The information contained in this document is proprietary. The information may not be copied in whole or in part without the written permission of Umpqua Health Alliance. All rights reserved.

This document contains references to brand name prescription drugs that are trademarks or registered trademarks of pharmaceutical manufacturers that are not affiliated with Umpqua Health Alliance.

If viewing this formulary via the Internet, please be advised that the formulary is updated periodically and changes may appear prior to their effective date.

## HOW TO USE THE FORMULARY

The medications on the Umpqua Health Alliance (UHA) formulary are grouped into categories depending on the type of medical conditions that they are used to treat. Medications are listed in alphabetical order by the generic name listed in the second column of the drug table. Brand name drugs are capitalized, and generic drugs are listed in lower case.

Every effort has been made to accurately list Prior Authorization requirements, Quantity Limits, and Specialty Pharmacy requirements. However, some drugs - due to supply issues, cost, or other factors, may require a prior authorization, or have quantity limitations not listed.

Generic drugs, if available are preferred over the brand name drug.

## GENERIC AND BRAND NAME MEDICATIONS

Umpqua Health Alliance covers both brand name and generic medications. The presence of a brand name medication next to the generic equivalent is for informational purposes only, and is NOT an indication of coverage.

Coverage of multisource brand drugs listed on the UHA formulary that have generic equivalents available may require prior approval, as generic is preferred over brand name.

## LEGEND

The following restriction and coverage notes may be found within the body of the UHA formulary:

Abbreviations	Description	Explanation
PA	Prior Authorization Required	Prior authorization is required before filling a prescription for this medication. Without prior approval, UHA may not cover this medication. Documentation (including recent chart notes, the appropriate UHA request form, etc.) is required to be submitted by the member's provider prior to the dispensing of the requested medication.
QL	Quantity Limit	UHA limits the amount of this medication that is covered per prescription, or within a specific time frame. Exceptions may be allowed with prior approval.
ST	Step Therapy Restriction	Coverage for this medication may require you to have a claim history indicating you have tried a different medication in the past.
SPEC	Specialty Drug	Coverage for specialty drugs will only be provided if obtained from Medimpact Direct Specialty Pharmacy, which is the contracted pharmacy for UHA. <b>Medimpact Direct Specialty Hub</b> Telephone: (877) 391-1103 Fax: (888) 807-5716 Website: <a href="http://www.medimpactdirect.com">www.medimpactdirect.com</a>
