# INTRODUCTION

Prescription drugs are a very important part of your healthcare benefits. The following information will help you get the most out of your prescription drug benefit.

## WHAT IS A FORMULARY?

As a member of the Umpqua Health Alliance (UHA) CCO, you have Medicaid prescription drug coverage under the Oregon Health Plan (OHP). This booklet is your list of the drugs that we cover. We call it a drug “formulary.” A group of pharmacists and doctors decide which drugs should be in the formulary. Their goal is to create a formulary with drugs that are safe and effective and that offer the best value.

We usually update our formulary at least four times per year. The current version of our formulary is available on our website: [www.umpquahealth.com](http://www.umpquahealth.com).

## HOW DO I USE THE FORMULARY?

There are two ways to find a drug in the formulary:

### 1. By medical condition

The drugs are organized into categories that match the type of medical conditions each drug treats. For example, drugs to allergies are listed under the category “Allergy.” If you know what a drug is used for, start by looking for its category in the table of contents. Then check the category for the name of your drug.

### 2. Alphabetically

If you’re not sure which category a drug is in, look for the drug in the index at the end of this booklet. The index provides an alphabetical listing of all the drugs included in the formulary and the page where they can be found in the formulary.

## WHAT IS A BRAND, GENERIC AND OTC DRUG?

A generic drug is a copy of a brand-name drug. It has the same active ingredients as the brand-name drug. Generic drugs are approved by the U.S. Food and Drug Administration (FDA) after being tested for effectiveness and safety. They usually cost less than brand-name drugs and become available after the patent for a brand-name drug expires.

We cover both brand name and generic drugs. However, if a generic drug is available, we usually will not cover a brand name drug. The middle column of the formulary lists the drug type: brand, generic, or non drug (e.g. durable medical equipment). If the formulary lists only generic versions of a drug, this means that we do not cover the brand-name drug. In this column we also noted if a drug is over-the-counter (OTC).

## **ARE THERE RESTRICTIONS ON MY COVERAGE?**

Yes. Some covered drugs may have special rules or restrictions related to their use. If there is a restriction on a drug, it is listed in the formulary under the “Restrictions” column next to the drug. This may include information on quantity limits, if the drug requires preapproval or step therapy, or if the drug has any other important restrictions (like an age restriction). The following section, “Formulary Restriction Legend”, describes each type of restriction in detail. Certain restrictions require additional approval or “prior authorization”. This means that we will not pay for the drug without first receiving the important information we need from your provider. Your provider can submit a Prior Authorization Form to us to request coverage.

Drugs usually are not covered unless they are in the formulary. However, if your provider believes a drug outside of our formulary is the best drug for you, the provider can ask us to cover it by submitting a Prior Authorization Form to us. Usually, we'll approve formulary exception requests only if other formulary drugs would be less effective in treating your condition, or would cause side effects that could hurt you.

Drugs used to treat some conditions are not covered by OHP, such as drugs used to treat fibromyalgia, allergic rhinitis, fungal infections of the skin and nails, acne and chronic back pain. Drugs used for cosmetic purposes are also not covered by OHP. Drugs not approved by the FDA or used for non-medically accepted indications are also excluded from OHP coverage. However, we cover some over-the-counter (OTC) drugs that are listed in the formulary. These drugs have “OTC” noted in the middle column. These drugs are covered if you have a prescription for the drug from your provider.

Mental health drugs, such as antidepressants, anxiolytics and antipsychotics, are covered through the state’s Medical Assistance Programs (MAP). These drugs are not listed in this formulary. Your pharmacy sends the bill directly to MAP.

## **CAN I USE ANY PHARMACY?**

No. You must use a participating network pharmacy when filling your drugs. An in-network pharmacy is a pharmacy that has agreed to work with our members. To check if your pharmacy is in our network, you can use the “Find A Pharmacy” tool on our website, [www.umpquahealth.com](http://www.umpquahealth.com). Most drugs are limited to a 30-day supply at a participating network pharmacy.

## **DO I HAVE A COPAY?**

No. You do not have copays or tiers for your covered drugs. A copay is a set amount that you would pay for each drug. If a pharmacy asks you to pay for a prescription, call Customer Service before you pay.

## **FOR MORE INFORMATION**

If you should have additional questions about the UHA Formulary, please contact Customer Service at 541-229-4842 Monday through Friday from 8:00 a.m. to 5:00 p.m. Pacific Time. TTY: (541)-440-6304 | Toll Free TTY: (888)-877-6304.

## FORMULARY RESTRICTION LEGEND

The following restriction and coverage notes may be found in the right column in the formulary:

Abbreviations	Definition	Explanation
PA	Prior Authorization Required	Prior authorization (e.g. prior approval) is required before filling a prescription for this drug. This means you will need to get approval from us to pay for your drug. Without prior authorization, we may not cover this drug. Your provider must submit a request for prior authorization with the appropriate documentation (including recent chart notes) before the drug is covered.
ST	Step Therapy Restriction	We require you to first try another lower-cost drug ("Step 1 drug") before using the more expensive drug ("Step 2 drug"). If it is medically necessary for you to use a Step 2 drug first, your doctor will need to submit a request for prior authorization.
AR	Age Restriction	Coverage of this drug is limited to a specific age range. Covered ages are listed. A prior authorization is required for members outside of the listed age range.
QL	Quantity Limit	We will cover this drug only up to a certain quantity or limit per time or per fill. The specific quantity limit is listed. If you need quantities greater than the limit shown, your doctor can submit a request for prior authorization.
SPEC	Specialty Drug	Coverage for specialty drugs will only be provided if the drug is obtained through our contracted specialty pharmacy, MedImpact Direct Specialty Hub. <i>MedImpact Direct Specialty Hub</i> Telephone: (877) 391-1103 Fax: (888) 807-5716 Website: <a href="http://www.medimpactdirect.com">www.medimpactdirect.com</a>
