

Updated: 6/21/2021

Telehealth Code Description	Code	Modifier Needed to Bill for Telehealth
Radiation treatment management, 5 treatments	77427	
Interactive complexity code	90785	GT
Psychiatric diagnostic evaluation	90791	GT
Psychiatric diagnostic evaluation with medical services	90792	GT
Psychotherapy, 30 minutes with patient and/or family member	90832	GT
Psychotherapy, 30 minutes with patient and/or family member when performed with an E/M service	90833	GT
Psychotherapy, 45 minutes with patient and/or family member	90834	GT
Psychotherapy, 45 minutes with patient and/or family member when performed with an E/M service	90836	GT
Psychotherapy, 60 minutes with patient and/or family member.	90837	GT
Psychotherapy, 60 minutes with patient and/or family member when performed with an E/M service	90838	GT
Psychotherapy for crisis, first 60 minutes	90839	GT
Psychotherapy for crisis (each additional 30 minutes) - list separately in addition to primary service CPT code.	90840	GT
Family Psychotherapy (without the patient present)	90846	GT
Family Psychotherapy (with the patient present)	90847	GT
Multiple-family group psychotherapy	90849	GT
Group psychotherapy	90853	GT
Consultation with family - Explanation of psychiatric, medical examinations, procedures, and data to other than patient.	90887	GT
End-stage renal disease (ESRD) related services monthly, for patients younger than 2 years of age to include monitoring for the adequacy of nutrition, assessment of growth and development, and counseling of parents; with 4 or more face-to-face visits by a physician or other qualified health care professional per month	90951	
End-stage renal disease (ESRD) related services monthly, for patients 2-11 years of age to include monitoring for the adequacy of nutrition, assessment of growth and development, and counseling of parents; with 4 or more face-to-face visits by a physician or other qualified health care professional per month	90952	

End-stage renal disease (ESRD) related services monthly, for patients 2- 11 years of age to include monitoring for the adequacy of nutrition, assessment of growth and development, and counseling of parents; with 4 or more face-to-face visits by a physician or other qualified health care professional per month	90954
End-stage renal disease (ESRD) related services monthly, for patients 2-11 years of age to include monitoring for the adequacy of nutrition, assessment of growth and development, and counseling of parents; with 2-3 face-to-face visits by a physician or other qualified health care professional per month	90955
End-stage renal disease (ESRD) related services monthly, for patients 2-11 years of age to include monitoring for the adequacy of nutrition, assessment of growth and development, and counseling of parents; with 1 face-to-face visit by a physician or other qualified health care professional per month	90956
End-stage renal disease (ESRD) related services monthly, for patients 12-19 years of age to include monitoring for the adequacy of nutrition, assessment of growth and development, and counseling of parents; with 4 or more face-to-face visits by a physician or other qualified health care professional per month	90957
End-stage renal disease (ESRD) related services monthly, for patients 12-19 years of age to include monitoring for the adequacy of nutrition, assessment of growth and development, and counseling of parents; with 2-3 face-to-face visits by a physician or other qualified health care professional per month	90958
End-stage renal disease (ESRD) related services monthly, for patients 12-19 years of age to include monitoring for the adequacy of nutrition, assessment of growth and development, and counseling of parents; with 1 face-to-face visit by a physician or other qualified health care professional per month	90959
End-stage renal disease (ESRD) related services monthly, for patients 20 years of age and older; with 4 or more face-to-face visits by a physician or other qualified health care professional per month	90960
End-stage renal disease (ESRD) related services monthly, for patients 20 years of age and older; with 2-3 face-to-face visits by a physician or other qualified health care professional per month	90961
End-stage renal disease (ESRD) related services monthly, for patients 20 years of age and older; with 1 face-to-face visit by a physician or other qualified health care professional per month	90962

End-Stage Renal Disease (ESRD)-related services for home dialysis per full month, for patients younger than 2 years of age to include monitoring for the adequacy of nutrition, assessment of growth and development, and counseling of parents	90963
End-Stage Renal Disease (ESRD)-related services for home dialysis per full month, for patients 2–11 years of age to include monitoring for the adequacy of nutrition, assessment of growth and development, and counseling of parents	90964
End-stage renal disease (ESRD) related services for home dialysis per full month, for patients 12-19 years of age to include monitoring for the adequacy of nutrition, assessment of growth and development, and counseling of parents	90965
End-stage renal disease (ESRD) related services for home dialysis per full month, for patients 20 years of age and older	90966
End-Stage Renal Disease (ESRD)-related services for home dialysis per full month, for patients 12–19 years of age to include monitoring for the adequacy of nutrition, assessment of growth and development, and counseling of parents	90967
End-Stage Renal Disease (ESRD)-related services for dialysis less than a full month of service, per day; for patients 2–11 years of age	90968
End-Stage Renal Disease (ESRD)-related services for dialysis less than a full month of service, per day; for patients 12–19 years of age	90969
End-Stage Renal Disease (ESRD)-related services for dialysis less than a full month of service, per day; for patients 20 years of age and older	90970
Treatment of speech, language, voice, communication, and/or auditory processing disorder; individual	92507
Treatment of speech, language, voice, communication, and/or auditory processing disorder; group, 2 or more individuals	92508
Evaluation of speech fluency	92521
Evaluation of speech sound production	92522
Evaluation of speech sound production; with evaluation of language comprehension and expression	92523
Behavioral and qualitative analysis of voice and resonance	92524
Treatment of swallowing dysfunction and/or oral function for feeding	92526
Neurobehavioral status examination	96116

Neurobehavioral status exam (clinical assessment of thinking, reasoning and judgment, [eg, acquired knowledge, attention, language, memory, planning and problem solving, and visual spatial abilities]), by physician or other qualified health care professional, both face-to-face time with the patient and time interpreting test results and preparing the report; each additional hou	96121	
Standardized cognitive performance testing (eg, Ross Information Processing Assessment) per hour of a qualified health care professional's time, both face-to-face time administering tests to the patient and time interpreting these test results and preparing the report	96125	
Brief emotional/behavioral assessment (eg, depression inventory, attention-deficit/hyperactivity disorder [ADHD] scale), with scoring and documentation, per standardized instrument	96127	
Psychological testing evaluation services by physician or other qualified health care professional, including integration of patient data, interpretation of standardized test results and clinical data, clinical decision making, treatment planning and report, and interactive feedback to the patient, family member(s) or caregiver(s), when performed; first hour	96130	GT
Psychological testing evaluation services by physician or other qualified health care professional, including integration of patient data, interpretation of standardized test results and clinical data, clinical decision making, treatment planning and report, and interactive feedback to the patient, family member(s) or caregiver(s), when performed; each additional hour	96131	GT
Neuropsychological testing, interpretation, and report by psychologist or physician, first 60 minutes	96132	GT
Neuropsychological testing, interpretation, and report by psychologist or physician, additional 60 minutes	96133	GT
Psychological or neuropsychological test administration and scoring by physician or other qualified health care professional, two or more tests, any method; first 30 minutes	96136	GT
Psychological or neuropsychological test administration and scoring by physician or other qualified health care professional, two or more tests, any method; each additional 30 minutes	96137	GT
Psychological or neuropsychological test administration and scoring by technician, two or more tests, any method; first 30 minutes	96138	
Psychological or neuropsychological test administration and scoring by technician, two or more tests, any method; each additional 30 minutes	96139	

Health behavior assessment, or re-assessment (ie, health-focused clinical interview, behavioral observations, clinical decision making)	96156
Health behavior intervention, individual, face-to-face; initial 30 minutes	96158
Eye Exam New Patient	92002-92004
Eye Exam Established Patient	92012-92014
Tympanometry and reflex threshold measurements	92550
Pure tone audiometry (threshold); air only	92552
Pure tone audiometry (threshold); air and bone	92553
Speech audiometry threshold;	92555
Speech audiometry threshold; with speech recognition	92556
Comprehensive audiometry threshold evaluation and speech recognition (92553 and 92556 combined)	92557
Tone decay test	92563
Stenger test, pure tone	92565
Tympanometry (impedance testing)	92567
Acoustic reflex testing, threshold	92568
Acoustic immittance testing, includes tympanometry (impedance testing), acoustic reflex threshold testing, and acoustic reflex decay testing	92570
Distortion product evoked otoacoustic emissions; limited evaluation (to confirm the presence or absence of hearing disorder, 3-6 frequencies) or transient evoked otoacoustic emissions, with interpretation and report	92587
Diagnostic analysis of cochlear implant, patient younger than 7 years of age; with programming	92601
Diagnostic analysis of cochlear implant, patient younger than 7 years of age; subsequent reprogramming	92602
Diagnostic analysis of cochlear implant, age 7 years or older; with programming	92603
Diagnostic analysis of cochlear implant, age 7 years or older; subsequent reprogramming	92604
Evaluation for prescription for speech-generating augmentative and alternative communication device, face-to-face with the patient; first hour	92607
Evaluation for prescription for speech-generating augmentative and alternative communication device, face-to-face with the patient; each additional 30 minutes (List separately in addition to code for primary procedure)	92608

Therapeutic services for the use of speech-generating device, including programming and modification	92609
Evaluation of oral and pharyngeal swallowing function	92610
Evaluation of auditory function for surgically implanted device(s) candidacy or postoperative status of a surgically implanted device(s); first hour	92626
Evaluation of auditory function for surgically implanted device(s) candidacy or postoperative status of a surgically implanted device(s); each additional 15 minutes (List separately in addition to code for primary procedure)	92627
Interrogation of ventricular assist device (VAD), in person, with physician or other qualified health care professional analysis of device parameters (eg, drivelines, alarms, power surges), review of device function (eg, flow and volume status, septum status, recovery), with programming, if performed, and report	93750
Physician or other qualified health care professional services for outpatient cardiac rehabilitation; without continuous ECG monitoring (per session)	93797
Physician or other qualified health care professional services for outpatient cardiac rehabilitation; with continuous ECG monitoring (per session)	93798
Ventilation assist and management, initiation of pressure or volume preset ventilators for assisted or controlled breathing; hospital inpatient/observation, initial day	94002
Ventilation assist and management, initiation of pressure or volume preset ventilators for assisted or controlled breathing; hospital inpatient/observation, each subsequent day	94003
Ventilation assist and management, initiation of pressure or volume preset ventilators for assisted or controlled breathing; nursing facility, per day	94004
Home ventilator management care plan oversight of a patient (patient not present) in home, domiciliary or rest home (eg, assisted living) requiring review of status, review of laboratories and other studies and revision of orders and respiratory care plan (as appropriate), within a calendar month, 30 minutes or more	94005
Demonstration and/or evaluation of patient utilization of an aerosol generator, nebulizer, metered dose inhaler or IPPB device	94664

Electronic analysis of implanted neurostimulator pulse generator/transmitter (eg, contact group[s], interleaving, amplitude, pulse width, frequency [Hz], on/off cycling, burst, magnet mode, dose lockout, patient selectable parameters, responsive neurostimulation, detection algorithms, closed loop parameters, and passive parameters) by physician or other qualified health care professional; with brain, cranial nerve, spinal cord, peripheral nerve, or sacral nerve, neurostimulator pulse generator/transmitter, without programming	95970
Electronic analysis of implanted neurostimulator pulse generator/transmitter (eg, contact group[s], interleaving, amplitude, pulse width, frequency [Hz], on/off cycling, burst, magnet mode, dose lockout, patient selectable parameters, responsive neurostimulation, detection algorithms, closed loop parameters, and passive parameters) by physician or other qualified health care professional; with simple spinal cord or peripheral nerve (eg, sacral nerve) neurostimulator pulse generator/transmitter programming by physician or other qualified health care professional	95971
Electronic analysis of implanted neurostimulator pulse generator/transmitter (eg, contact group[s], interleaving, amplitude, pulse width, frequency [Hz], on/off cycling, burst, magnet mode, dose lockout, patient selectable parameters, responsive neurostimulation, detection algorithms, closed loop parameters, and passive parameters) by physician or other qualified health care professional; with complex spinal cord or peripheral nerve (eg, sacral nerve) neurostimulator pulse generator/transmitter programming by physician or other qualified health care professional	95972
Electronic analysis of implanted neurostimulator pulse generator/transmitter (eg, contact group[s], interleaving, amplitude, pulse width, frequency [Hz], on/off cycling, burst, magnet mode, dose lockout, patient selectable parameters, responsive neurostimulation, detection algorithms, closed loop parameters, and passive parameters) by physician or other qualified health care professional; with brain neurostimulator pulse generator/transmitter programming, first 15 minutes face-to-face time with physician or other qualified health care professional	95983

Electronic analysis of implanted neurostimulator pulse generator/transmitter (eg, contact group[s], interleaving, amplitude, pulse width, frequency [Hz], on/off cycling, burst, magnet mode, dose lockout, patient selectable parameters, responsive neurostimulation, detection algorithms, closed loop parameters, and passive parameters) by physician or other qualified health care professional; with brain neurostimulator pulse generator/transmitter programming, each additional 15 minutes face-to-face time with physician or other qualified health care professional (List separately in addition to code for primary procedure)	95984	
Developmental screening (eg, developmental milestone survey, speech and language delay screen), with scoring and documentation, per standardized instrument	96110	
Developmental test administration (including assessment of fine and/or gross motor, language, cognitive level, social, memory and/or executive functions by standardized developmental instruments when performed), by physician or other qualified health care professional, with interpretation and report; first hour	96112	
Developmental test administration (including assessment of fine and/or gross motor, language, cognitive level, social, memory and/or executive functions by standardized developmental instruments when performed), by physician or other qualified health care professional, with interpretation and report; each additional 30 minutes (List separately in addition to code for primary procedure)	96113	
Health behavior intervention, individual, face-to-face; each additional 15 minutes (List separately in addition to code for primary service)	96159	
Administration of patient-focused health risk assessment instrument (eg, health hazard appraisal) with scoring and documentation, per standardized instrument	96160	
Administration of caregiver-focused health risk assessment instrument (eg, depression inventory) for the benefit of the patient, with scoring and documentation, per standardized instrument	96161	
Health behavior intervention, group (2 or more patients), face-to-face; initial 30 minutes	96164	
Health behavior intervention, group (2 or more patients), face-to-face; each additional 15 minutes (List separately in addition to code for primary service)	96165	
Health behavior intervention, family (with the patient present), face-to-face; initial 30 minutes	96167	

Health behavior intervention, family (with the patient present), face-to-face; each additional 15 minutes (List separately in addition to code for primary service)	96168	
Health behavior intervention, family (without the patient present), face-to-face; initial 30 minutes	96170	
Health behavior intervention, family (without the patient present), face-to-face; each additional 15 minutes (List separately in addition to code for primary service)	96171	
Therapeutic procedure, 1 or more areas, each 15 minute	97110	
Therapeutic procedure, 1 or more areas, each 15 minutes	97112	
Therapeutic procedure, 1 or more areas, each 15 minutes; gait training	97116	
Therapeutic interventions that focus on cognitive function (eg, attention, memory, reasoning, executive function, problem solving, and/or pragmatic functioning) and compensatory strategies to manage the performance of an activity (eg, managing time or schedules, initiating, organizing, and sequencing tasks), direct (one-on-one) patient contact; initial 15 minutes	97129	
Therapeutic interventions that focus on cognitive function (eg, attention, memory, reasoning, executive function, problem solving, and/or pragmatic functioning) and compensatory strategies to manage the performance of an activity (eg, managing time or schedules, initiating, organizing, and sequencing tasks), direct (one-on-one) patient contact; each additional 15 minutes	97130	
Therapeutic procedure(s), group (2 or more individuals)	97150	
Behavior identification assessment, administered by a physician or other qualified health care professional, each 15 minute	97151	
Behavior identification-supporting assessment, administered by one technician, each 15 minutes	97152	
Behavior treatment by protocol administered by technician, each 15 minutes	97153	GT
Group behavior treatment by protocol administered by technician, each 15 minutes, per recipient	97154	GT
Behavior treatment with protocol modification administered by physician or other qualified health care professional, each 15 minutes	97155	GT
Family behavior treatment guidance administered by qualified health care professional, each 15 minutes, single family	97156	GT
Family behavior treatment guidance administered by qualified health care professional, 15 minutes, per family	97157	GT

Group adaptive behavior treatment with protocol modification, administered by physician or other qualified health care professional, face-to-face with multiple patients, each 15 minutes Physical therapy evaluation: low complexity Physical therapy evaluation: moderate complexity Physical therapy evaluation: high complexity, Physical therapy evaluation: high complexity, Physical therapy evaluation in provided the provided plan of care Occupational therapy evaluation, low complexity Occupational therapy evaluation, low complexity, Occupational therapy evaluation, moderate complexity, requiring these components Occupational therapy evaluation, high complexity, requiring these components Re-evaluation of occupational therapy established plan of care Pherapeutic activities, direct (one-on-one) patient contact (use of dynamic activities to improve functional performance), each 15 minutes Self-care/home management training Wheelchair management (eg, assessment, fitting, training), each 15 minutes Physical performance test or measurement Assistive technology assessment (eg, to restore, augment or compensate for existing function, optimize functional tasks and/or maximize environmental accessibility), direct one-on-one contact, with written report, each 15 minute Orthotic(s) management and training (including assessment and fitting when not otherwise reported), upper extremity(ies), lower extremity(ies) and/or trunk, initial orthotic(s) encounter, each 15 minutes Prosthetic(s) training, upper and/or lower extremity(ies), initial prosthetic(s) encounter, each 15 minutes Medical nutrition therapy; re-assessment and intervention, individual, face-to-face with the patient, each 15 minutes Medical nutrition therapy; group (2 or more individual(s)), each 30 Minutes Medical nutrition therapy; group (2 or more individual(s)), each 30 Minutes Medical nutrition therapy; group (2 or more individual(s)), each 30 Minutes		
Physical therapy evaluation: moderate complexity 97162 Physical therapy evaluation: high complexity, 97163 Re-evaluation of physical therapy established plan of care 97164 Occupational therapy evaluation, low complexity 97165 Occupational therapy evaluation, moderate complexity, requiring these components Occupational therapy evaluation, high complexity, requiring these components Re-evaluation of occupational therapy established plan of care 97167 Therapeutic activities, direct (one-on-one) patient contact (use of dynamic activities to improve functional performance), each 15 minutes Self-care/home management training 97530 Wheelchair management (eg, assessment, fitting, training), each 15 minutes Physical performance test or measurement 97750 Assistive technology assessment (eg, to restore, augment or components of existing function, optimize functional tasks and/or maximize environmental accessibility), direct one-on-one contact, with written report, each 15 minute Orthotic(s) management and training (including assessment and fitting when not otherwise reported), upper extremity(ies), lower extremity(ies) and/or trunk, initial orthotic(s) encounter, each 15 minutes Medical nutrition therapy; re-assessment and intervention, individual, face-to-face with the patient, each 15 minutes Medical nutrition therapy; group (2 or more individual(s)), each 30 97804 minutes Acupuncture, 1 or more needles; without electrical stimulation, initial 97810	administered by physician or other qualified health care professional,	97158
Physical therapy evaluation: high complexity, Re-evaluation of physical therapy established plan of care 97164 Occupational therapy evaluation, low complexity 97165 Occupational therapy evaluation, moderate complexity, requiring these components Occupational therapy evaluation, high complexity, requiring these components Re-evaluation of occupational therapy established plan of care Physical cativities, direct (one-on-one) patient contact (use of dynamic activities to improve functional performance), each 15 minutes Self-care/home management training Wheelchair management (eg, assessment, fitting, training), each 15 minutes Physical performance test or measurement Assistive technology assessment (eg, to restore, augment or compensate for existing function, optimize functional tasks and/or maximize environmental accessibility), direct one-on-one contact, with written report, each 15 minute Orthotic(s) management and training (including assessment and fitting when not otherwise reported), upper extremity(ies), lower extremity(ies) and/or trunk, initial orthotic(s) encounter, each 15 minutes Prosthetic(s) training, upper and/or lower extremity(ies), initial prosthetic(s) encounter, each 15 minutes Medical nutrition therapy; initial assessment and intervention, individual, face-to-face with the patient, each 15 minutes Acupuncture, 1 or more needles; without electrical stimulation, initial Acupuncture, 1 or more needles; without electrical stimulation, initial	Physical therapy evaluation: low complexity	97161
Re-evaluation of physical therapy established plan of care Occupational therapy evaluation, low complexity Occupational therapy evaluation, moderate complexity, requiring these components Occupational therapy evaluation, high complexity, requiring these components Re-evaluation of occupational therapy established plan of care Therapeutic activities, direct (one-on-one) patient contact (use of dynamic activities to improve functional performance), each 15 minutes Self-care/home management training Wheelchair management (eg, assessment, fitting, training), each 15 minutes Physical performance test or measurement Assistive technology assessment (eg, to restore, augment or compensate for existing function, optimize functional tasks and/or maximize environmental accessibility), direct one-on-one contact, with written report, each 15 minute Orthotic(s) management and training (including assessment and fitting when not otherwise reported), upper extremity(ies), lower extremity(ies) and/or trunk, initial orthotic(s) encounter, each 15 minutes Prosthetic(s) training, upper and/or lower extremity(ies), initial prosthetic(s) encounter, each 15 minutes Medical nutrition therapy; initial assessment and intervention, individual, face-to-face with the patient, each 15 minutes Medical nutrition therapy; group (2 or more individual(s)), each 30 minutes Acupuncture, 1 or more needles; without electrical stimulation, initial Acupuncture, 1 or more needles; without electrical stimulation, initial	Physical therapy evaluation: moderate complexity	97162
Occupational therapy evaluation, low complexity Occupational therapy evaluation, moderate complexity, requiring these components Occupational therapy evaluation, high complexity, requiring these components Re-evaluation of occupational therapy established plan of care Prespectic activities, direct (one-on-one) patient contact (use of dynamic activities to improve functional performance), each 15 minutes Self-care/home management training Wheelchair management (eg, assessment, fitting, training), each 15 minutes Physical performance test or measurement Assistive technology assessment (eg, to restore, augment or compensate for existing function, optimize functional tasks and/or maximize environmental accessibility), direct one-on-one contact, with written report, each 15 minute Orthotic(s) management and training (including assessment and fitting when not otherwise reported), upper extremity(ies), lower extremity(ies) and/or trunk, initial orthotic(s) encounter, each 15 minutes Prosthetic(s) training, upper and/or lower extremity(ies), initial prosthetic(s) encounter, each 15 minutes Medical nutrition therapy; initial assessment and intervention, individual, face-to-face with the patient, each 15 minutes Medical nutrition therapy; re-assessment and intervention, individual, face-to-face with the patient, each 15 minutes Medical nutrition therapy; group (2 or more individual(s)), each 30 minutes Acupuncture, 1 or more needles; without electrical stimulation, initial	Physical therapy evaluation: high complexity,	97163
Occupational therapy evaluation, moderate complexity, requiring these components Occupational therapy evaluation, high complexity, requiring these components Re-evaluation of occupational therapy established plan of care 97168 Therapeutic activities, direct (one-on-one) patient contact (use of dynamic activities to improve functional performance), each 15 minutes Self-care/home management training 97535 Wheelchair management (eg, assessment, fitting, training), each 15 minutes Physical performance test or measurement 97750 Assistive technology assessment (eg, to restore, augment or compensate for existing function, optimize functional tasks and/or maximize environmental accessibility), direct one-on-one contact, with written report, each 15 minute Orthotic(s) management and training (including assessment and fitting when not otherwise reported), upper extremity(ies), lower extremity(ies) and/or trunk, initial orthotic(s) encounter, each 15 minutes Prosthetic(s) training, upper and/or lower extremity(ies), initial prosthetic(s) encounter, each 15 minutes Medical nutrition therapy; initial assessment and intervention, individual, face-to-face with the patient, each 15 minutes Medical nutrition therapy; group (2 or more individual(s)), each 30 minutes Acupuncture, 1 or more needles; without electrical stimulation, initial 97810	Re-evaluation of physical therapy established plan of care	97164
these components Occupational therapy evaluation, high complexity, requiring these components Re-evaluation of occupational therapy established plan of care Prageutic activities, direct (one-on-one) patient contact (use of dynamic activities to improve functional performance), each 15 minutes Self-care/home management training Wheelchair management (eg, assessment, fitting, training), each 15 minutes Physical performance test or measurement Assistive technology assessment (eg, to restore, augment or compensate for existing function, optimize functional tasks and/or maximize environmental accessibility), direct one-on-one contact, with written report, each 15 minute Orthotic(s) management and training (including assessment and fitting when not otherwise reported), upper extremity(ies), lower extremity(ies) and/or trunk, initial orthotic(s) encounter, each 15 minutes Prosthetic(s) training, upper and/or lower extremity(ies), initial prosthetic(s) encounter, each 15 minutes Medical nutrition therapy; initial assessment and intervention, individual, face-to-face with the patient, each 15 minutes Medical nutrition therapy; group (2 or more individual(s)), each 30 minutes Acupuncture, 1 or more needles; without electrical stimulation, initial 97810	Occupational therapy evaluation, low complexity	97165
Re-evaluation of occupational therapy established plan of care Re-evaluation of occupational therapy established plan of care Therapeutic activities, direct (one-on-one) patient contact (use of dynamic activities to improve functional performance), each 15 minutes Self-care/home management training Wheelchair management (eg, assessment, fitting, training), each 15 minutes Physical performance test or measurement Assistive technology assessment (eg, to restore, augment or compensate for existing function, optimize functional tasks and/or maximize environmental accessibility), direct one-on-one contact, with written report, each 15 minute Orthotic(s) management and training (including assessment and fitting when not otherwise reported), upper extremity(ies), lower extremity(ies) and/or trunk, initial orthotic(s) encounter, each 15 minutes Prosthetic(s) training, upper and/or lower extremity(ies), initial prosthetic(s) encounter, each 15 minutes Medical nutrition therapy; initial assessment and intervention, individual, face-to-face with the patient, each 15 minutes Medical nutrition therapy; group (2 or more individual(s)), each 30 minutes Acupuncture, 1 or more needles; without electrical stimulation, initial 97810		97166
Therapeutic activities, direct (one-on-one) patient contact (use of dynamic activities to improve functional performance), each 15 minutes Self-care/home management training Wheelchair management (eg, assessment, fitting, training), each 15 minutes Physical performance test or measurement Assistive technology assessment (eg, to restore, augment or compensate for existing function, optimize functional tasks and/or maximize environmental accessibility), direct one-on-one contact, with written report, each 15 minute Orthotic(s) management and training (including assessment and fitting when not otherwise reported), upper extremity(ies), lower extremity(ies) and/or trunk, initial orthotic(s) encounter, each 15 minutes Prosthetic(s) training, upper and/or lower extremity(ies), initial prosthetic(s) encounter, each 15 minutes Medical nutrition therapy; initial assessment and intervention, individual, face-to-face with the patient, each 15 minutes Medical nutrition therapy; re-assessment and intervention, individual, face-to-face with the patient, each 15 minutes Medical nutrition therapy; group (2 or more individual(s)), each 30 minutes Acupuncture, 1 or more needles; without electrical stimulation, initial		97167
dynamic activities to improve functional performance), each 15 minutes Self-care/home management training Wheelchair management (eg, assessment, fitting, training), each 15 minutes Physical performance test or measurement Assistive technology assessment (eg, to restore, augment or compensate for existing function, optimize functional tasks and/or maximize environmental accessibility), direct one-on-one contact, with written report, each 15 minute Orthotic(s) management and training (including assessment and fitting when not otherwise reported), upper extremity(ies), lower extremity(ies) and/or trunk, initial orthotic(s) encounter, each 15 minutes Prosthetic(s) training, upper and/or lower extremity(ies), initial prosthetic(s) encounter, each 15 minutes Medical nutrition therapy; initial assessment and intervention, individual, face-to-face with the patient, each 15 minutes Medical nutrition therapy; re-assessment and intervention, individual, face-to-face with the patient, each 15 minutes Medical nutrition therapy; group (2 or more individual(s)), each 30 minutes Acupuncture, 1 or more needles; without electrical stimulation, initial 97810	Re-evaluation of occupational therapy established plan of care	97168
Wheelchair management (eg, assessment, fitting, training), each 15 minutes Physical performance test or measurement Assistive technology assessment (eg, to restore, augment or compensate for existing function, optimize functional tasks and/or maximize environmental accessibility), direct one-on-one contact, with written report, each 15 minute Orthotic(s) management and training (including assessment and fitting when not otherwise reported), upper extremity(ies), lower extremity(ies) and/or trunk, initial orthotic(s) encounter, each 15 minutes Prosthetic(s) training, upper and/or lower extremity(ies), initial prosthetic(s) encounter, each 15 minutes Medical nutrition therapy; initial assessment and intervention, individual, face-to-face with the patient, each 15 minutes Medical nutrition therapy; re-assessment and intervention, individual, face-to-face with the patient, each 15 minutes Medical nutrition therapy; group (2 or more individual(s)), each 30 minutes Acupuncture, 1 or more needles; without electrical stimulation, initial 97810	dynamic activities to improve functional performance), each 15	97530
Physical performance test or measurement Assistive technology assessment (eg, to restore, augment or compensate for existing function, optimize functional tasks and/or maximize environmental accessibility), direct one-on-one contact, with written report, each 15 minute Orthotic(s) management and training (including assessment and fitting when not otherwise reported), upper extremity(ies), lower extremity(ies) and/or trunk, initial orthotic(s) encounter, each 15 minutes Prosthetic(s) training, upper and/or lower extremity(ies), initial prosthetic(s) encounter, each 15 minutes Medical nutrition therapy; initial assessment and intervention, individual, face-to-face with the patient, each 15 minutes Medical nutrition therapy; re-assessment and intervention, individual, face-to-face with the patient, each 15 minutes Medical nutrition therapy; group (2 or more individual(s)), each 30 minutes Acupuncture, 1 or more needles; without electrical stimulation, initial 97810	Self-care/home management training	97535
