

Go to the Emergency Room or Call 911

For serious or life-threatening emergencies

If you are in danger or need immediate care, don't wait. Call 911 or go to the nearest Emergency Room (ER).

- Bleeding that won't stop
- Severe burns or deep cuts
- Severe difficulty breathing
- Chest pain or pressure
- Seizures
- Vomiting blood
- Fainting or loss of consciousness
- Numbness in your face, arm, or leg
- Fever with rash

Visit Urgent Care or a Walk-In Clinic

For illnesses or injuries that need attention today

When your doctor's office is closed or unavailable, urgent care can help with issues that are not life-threatening but shouldn't wait

- Cuts needing stitches
- Minor burns
- Sprains or strains
- Ear infections or pink eye
- Shortness of breath (mild)
- Vomiting or diarrhea
- Back pain or migraines
- Colds, flu, and fevers
- Fever without rash

Go to Your Doctor's Office

For everyday health needs and ongoing care

Your doctor (*Primary Care Provider*) knows your history and is your best first step for most health concerns.

- Checkups and vaccinations
- Medication refills
- Health screenings (*like blood pressure or lab tests*)
- Managing chronic conditions (*like diabetes or asthma*)
- Questions about new or ongoing symptoms
